

## PRESS RELEASE

### **FINEST ENTERS INTO THE SHARE CAPITAL OF DTI HUNGARY** **Strategic joint venture to boost international growth**

**Udine - 6th September, 2023.** DTI Hungary Kft., the Hungarian production site of DTI Srl, announces the entry of **Finest S.p.A.** with **43.6%** in its share capital.

For the operation, Finest, the financial company for the internationalization of Triveneto companies, made a total investment of about **1.3 million euro**, which allows DTI Hungary the capital increase and further support in the activities planned in the '21-'26 business plan.

Thanks to this collaboration, DTI Hungary will be able to stabilize its growth capacity, also offering innovative solutions to new markets and thus supporting commercial internationalization.

The project is part of the plan to expand the new headquarters in Zalaegerszeg, which will be completed next October with a doubling of the available space to a total of 5,000 square metres and a consolidation of the production team.

*"In Finest we found a reliable partner that is aligned to our needs," commented **Vinicio Dalla Torre, General Manager Plant DTI Hungary.** "This allows us to make significant investments in technology, means and resources to enhance the production capacity of our company and increase its efficiency, thus supporting our competitiveness in the market."*

**Finest S.p.A.** expresses its satisfaction with the investment operation alongside the DTI Group, a solid and innovative Friulian company, engaged in a sector with a high research and development component, such as that of advanced electronics to create HMI solutions, IoT, power units and wiring harnesses for the professional appliance markets in the coffee, beverage, pizza&bakery, professional food service and automotive sectors, which represent some of the main pillars on which the architecture of European global value chains is based. The investment in Hungary aims to bring the Triveneto-based company into the heart of the international dynamics of these value chains, firmly maintaining control of the production chain and allowing the parent company in Tavagnacco (UD) to increase its competitiveness in foreign markets.

For the purposes of the transaction, we would like to thank the law firm Dr. Takács Tibor, the law firm Snaidero & Partners in the person of Alberto Piu as advisor and the lawyer Giuliano Gabrielli as legal advisor, and the accountancy firm Diamond in the person of Dr. Natran Laszlo.

#### **FINEST S.p.A.**

For 30 years Finest S.p.A. has been the reference financial company for companies in north-eastern Italy for their internationalization projects in neighboring countries. It has developed more than 660 projects alongside local companies, investing more than EUR 430 million, with equity investments in foreign subsidiaries and direct foreign financing. It has also recently activated the possibility of subscribing to bonds issued by Triveneto companies to finance their international projects.

#### **DTI S.r.l.**

DTI is an international EMS (Electronic Manufacturing Services) offering innovative and high-quality technological solutions. It designs, tests and manufactures customized electronics, wiring harnesses and mechanics for the professional appliance and automotive sectors. With over fourteen years of activity and two production sites (one in Udine and the other in Hungary), today DTI employs more than 70 people, of whom more than 15 are involved in the R&D department.
